

The Indestructible Student Chair

Reinvigorating the student experience

Our Indestructible Student Chair is the most robust chair available to the education sector.

Sustainably made in the UK, with UK components and guaranteed to last a minimum of 10 years!

Our education customers include

The Indestructible Student Chair

Reinvigorating the student experience

Chairs features:

- Gas height adjustment to support all student heights
- Fire resistant foams and fabrics
- Black scratch resistant steel frames and bases
- A fixed back with no removable parts to ensure the chairs are tamper proof and up to the challenge of withstanding everything that students can throw at them
- Upholstered in a wide range of sustainable fabrics & vinyls plus we can re-upholster in the future to further extend the life of the chair
- 10 Year guarantee on all components (fabric 5 year)
- Cantilever frame and bench height versions also available

MADE IN
BRITAIN

Upholstery

Large fabric choices (all are fire retardant and made in the UK):

ONE – A heavy duty smooth knit fabric made entirely from recycled plastic bottles (41 colours)

SEALIFE – A heavy duty smooth knit fabric made from reclaimed marine plastic (31 colours)

VITA – Is a leather-look vinyl, with a subtle surface grain and full matt appearance. It provides maximum protection for heavy duty end-use areas and is anti-microbial/anti-fungal (51 colours)

Fabric samples and many other fabric options available upon request

In Summary

The ISC is a sustainably made, affordable, high quality supportive student chair to suit all sizes that will not break under excessive student use

Manufactured in the UK using UK components. 2-4 week delivery

The Office Furniture Consultancy

What we do

The Office Furniture Consultancy provides UK customers with trusted advice and expertise on selecting and supplying well designed and sustainably produced ergonomic workplace products for all working environments.

Who we work with

We work with architects, specifiers, trade partners and individuals to provide informed ethical and sustainable purchasing choices, backed up with trusted guarantees.

Our products

Our products are manufactured in the UK & EU to the strictest environmental protocols with the majority achieving net zero carbon emission status. We work with manufacturers who produce and promote the use of recycled content including innovative fabric producers using recycled PET and upcycled marine plastics (Seaqual Initiative)

Our service

Our dedicated project management expertise is included with every project/order. We recognise that all customers are unique and that communication is paramount. Our superior levels of communication and customer care will always be maintained before, during and post delivery.

What does this mean to you?

You benefit from working with a dedicated and capable supplier, built around trust and understanding, that will not let you down.
